**# Number of Respondents:** how many students (total) chose each response option on the 5-point scale.

**Likert-scale response options:**

**Strongly Agree [SA]**  
**Agree [A]**  
**Neutral [N]**  
**Disagree [D]**  
**Strongly Disagree [SD]**

**Score:** % of students who chose each response option on the 5-point scale.

**Percentage positive [%+ve] and negative [%-ve]:** Responses added together to provide an overall percentage. Positive = (strongly agree + agree) Negative = (strongly disagree + disagree)

**Median:** Value at the middle of the distribution.

**Std dev (Standard Deviation):** Spread of responses in relation to the mean of the question. The closer the value to one, the greater the spread.

**Mean:** The average of scores.

**Legend** 5pt Likert scale: SD - Strongly Disagree, D - Disagree, N - Neutral, A - Agree, SA - Strongly Agree
